

CRYSTAL CARE CENTER OF MANSFIELD

DISASTER PLAN INSTRUCTIONS

FOR VENDORS

In the event of an emergency affecting the facility, whether it be the result of natural or man-made causes, we want you to know that we have processes and procedures in place to respond to such emergencies. In an actual emergency as you might imagine, there will be a great deal of activity taking place, with potential first responders and emergency personnel arriving on the scene.

Should an actual emergency occur facility personnel will alert you as to the need to make any scheduled or needed deliveries. If you are in the facility conducting business when an emergency occurs, we ***may*** request your assistance in responding to emergency in some manner.

We encourage all our vendors to review the facility Emergency Preparedness manuals, which are conveniently located at each nurse's station. Just notify the charge nurse at the nurse's station of your desire to review the manual. Should you have any questions, please don't hesitate to contact the Administrator and/or Director of Nursing, or any of our administrative staff.

Thank you.
